XLE STORAGE HEATER

An advanced electric storage heater, developed in response to Lot 20 regulations and to supersede the XLS and CXL ranges. With a clean look and reliable performance, it provides an upgraded and compliant replacement for older storage heaters.

· Efficient heating system with low running costs delivered by maximising the use of off-peak tariffs.
· Dynamic storage capacity - automatically adjusts to user requirements
· Controllable electronic heat output to match user lifestyle
· Quiet fan assisted heat output
· Good heat retention and responsiveness in SAP
